

PERSON -CENTRED CARE AND DEMENTIA

This course is for staff who have already taken an Introduction to Dementia course and focuses more specifically in working with people with Dementia to provide good practice in person -centred care.

The course focuses on:

- The experience of people with Dementia
- Communications skills and relationships with people with Dementia
- Values and attitudes towards people with Dementia
- Working with challenging behaviours and Dementia
- Activities and personal care for people with Dementia
- Teamwork with people with Dementia

This course can be run over a number of half days/days and directly relates to the Skills for Care 'Knowledge Set for Dementia'.
